ABOUT ĀCHĀRYA JI

Āchārya Vidyābhāskar Ji was born to a Swiss Hindu family practising in the Śrīvidyā lineage. From the age of 12, he enjoyed a traditional Sanskrit education, studying Pāṇinian Sanskrit grammar, the Gītā, the Upaniṣads, logic, etc. at Śrī Kailāś Āshram, a traditional monastic institution in Northern India. Today, he teaches meditation in the mainly Kashmir-origin nondual traditions of Śrīvidyā and Atiyoga, Sanskrit grammar as well as the Upaniṣads with their traditional commentaries and sub-commentaries, the works of Nāgarjuna, and so on.

ABOUT ADITYA JI

Aditya is former president of the Bristol Hindu Society and a Cambridge University graduate who spent three years in an Indian Āshram studying Vedānta (Hindu Philosophy), Sanskrit grammar and Vedic chanting.

WHY SANSKRIT?

Sanskrit is a powerful ancient Indian language. Neurologically, studying Sanskrit increases memory capacity, cognitive functions, and networked thinking. Students build up a richer vocabulary in daily life and greater language awareness. This is also closely related to heightened self-observation skills and thus to emotional clarity. Sanskrit refines one's personality through mental hygiene, self-control, compassion, poetry, aesthetics, and positive dispositions.
